THE 2011 SRX Crossover
Adaptive Forward Lighting is an available feature, enhancing the discerning eye. An optional premium lighting package features Vertical LED taillamps, energy-efficient, lasting up to ten times longer than traditional bulbs while providing enhanced illumination.

Front-wheel drive and optional advanced all-wheel drive are available configurations.

Adaptive Forward Lighting, an available feature, uses sensors to read speed and steering angle, and swivels high-intensity headlamps up to 15˚ to follow direction of travel.

Chrome Accents. Just one of the many stylish touches that give the SRX Crossover a polished look. Nicely complemented by faceted turn indicator lights.

The SRX is the Cadillac of crossovers. A fusing of dramatic presence, advanced technology and flexible storage space, all crafted to the highest level of detail. Powered by an advanced direct-injected or available turbocharged engine, suspension options that deliver nimble road performance, and offering a handcrafted interior that pampers both driver and passengers, here is a new standard for luxury crossovers.

Power liftgate with memory height, an available feature, allows you to open the rear liftgate to any pre-programmed height, and close it, at the touch of a button.

Vertical LED taillamps are energy-efficient, lasting up to ten times longer than traditional bulbs. They're a signature Cadillac styling cue.

The SRX Crossover is a premium luxury crossover that combines advanced technology with a handcrafted interior.
Stance of the SRX is wide, with minimal overhang and wheels pushed out to corners. The car seats five, offers generous passenger and cargo room, and can tow up to 3,500 lbs.¹,²

Engine options include a 3.0L direct injection V6, or an available 2.8L turbo charged V6 with ECO mode to alter transmission shift points and maximize fuel efficiency.³

Direct injection technology combined with Variable Valve Timing delivers the perfect balance of impressive power and fuel efficiency.⁴

6-speed automatic transmission incorporates Driver Shift Control, which allows individual control and adjustment of shift points and maximum fuel efficiency.⁵

Fully independent suspension is tuned to deliver smooth performance. An available continuous damping system adjusts damping forces every two milliseconds.⁶

Navy Blue Metallic exterior view. The SRX is fast, efficient and fun to drive, delivering performance to match its looks.

¹ When equipped with available trailer towing package.
² Maximum trailer-weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Cadillac dealer for additional details.

When it comes to the SRX, performance means many things. Solid body structure and crouching stance. Responsive suspension tuning with available continuous damping⁵ that adjusts shock stiffness to road surface conditions. StabiliTrak electronic stability control that automatically engages braking and modulates engine power to help the driver stay on course. And an available advanced all-wheel drive system that employs an electronic limited slip differential (eLSD) which provides enhanced control while cornering.
Inside the SRX, advanced technology and craftsmanship come together like never before. This is a carefully hand-crafted cabin, accented by exquisite French stitching, available Sapele wood trim, fingertip steering wheel-mounted controls and available interior ambient lighting. And incorporating amenities like a Bose® premium sound system, iPod® connectivity, and an available hard drive with 10GB for music storage, glide-up touch screen navigation, and Bluetooth® phone connectivity, makes the most of your driving experience.

On the SRX Interior

- An 8-speaker Bose® sound system and 10GB hard drive, 10-speaker Bose® 5.1 surround sound system.
- Rear seat DVD Entertainment System, an available feature, with dual seat-mounted flip-up diagonal screens, wireless headphones and remote provides diversion for passengers in back.
- Cargo doors in back, glove box and under the front seats fold flat to create 60 cu ft of space in back.
- Sapele wood trim, available feature, adds elegance and blend with leather-wrapped steering wheel and shift knob, and polished chrome accents.
- Rearview camera, an available feature, is viewable via an LCD screen in the rearview mirror or on the navigation screen, when equipped.
- Bluetooth®, an available feature, is activated by a steering wheel button and voice recognition, allowing hands-free mobile phone use.
Glide-up navigation and entertainment system, an available feature, combines 3D color imaging, voice guidance, and 10GB hard drive for music storage.

The Driver Information Center displays running data – speed, direction, distance, fuel use, oil level, tire pressure and more – in high-resolution color.

Memory settings option recalls settings for two drivers, including driver’s seat position, adjustable pedals, outside mirrors and other personal preferences.

The SRX has an abundance of technology, all aimed at improving driver experience. And as one moves up through the Luxury, Performance and Premium Collections – available equipment evolves. From a standard, full-color Driver Information Center offering multiple status and warning messages, to an available turbocharged engine that delivers thrilling throttle response, to entertainment and navigation upgrades that combine surround sound, iPod connectivity, pause-and-play live radio, even a rearview backup camera – no technical stone is left unturned.

TECHNOLOGY

Integrated iPod connectivity

Control your iPod or MP3 device through an easy-to-use interface with music info on the radio or navigation display. If supported.

Replaces access to available features. After connecting your device, simply download the MyLink app to display songs, artist and album information.

Keyless access, an available feature, allows convenient passive vehicle entry. Once programmed, the remote unlocks all five doors when carried near the vehicle and locks them as you walk away.
Passenger safety is a primary consideration throughout the engineering process. With preventative safety features like StabiliTrak electronic stability control, an anti-lock brake system (ABS), and one of the most advanced all-wheel drive systems available, the SRX was designed to help avoid collisions. But should an incident occur, the SRX looks out for you and yours.

Robust Body. The first layer of defense in the strong Body Framed Impact Safety (BFIS) construction is strategically engineered crumple zones. Making extensive use of high-strength steel, the SRX is designed to help absorb and channel crash energy away from the passenger compartment in the event of an impact.

Airbags. The SRX features six standard airbags, including advanced frontal stage-side, roof-mounted side-impact airbags for the driver and front-seat passenger, as well as the first and second-row outboard head curtain airbags.

Advanced All-Wheel Drive (AWD). Capable of shifting up to 85% of the torque from one wheel to the other as conditions demand. An electronic limited slip differential (eLSD) is built-in to the AWD system to help prevent torque transfer to spinning wheels.

Electronic Stability Control System, StabiliTrak. An electronic computer controller monitors the speed of each wheel and compares driver steering input with vehicle response, indicating to the on-board computer if you're likely to lose control. StabiliTrak is capable of shifting up to 100% of the torque from front to rear wheels needed to help you stay on course.

Hill Start, Ready Brake Alert and Brake Assist. These advanced features help you pull away from a stop or keep your position while stationary, knowing you have optimal braking power if you need to. The brake lights are automatically turned on as you drive away.

Automatic Crash Response. Your vehicle is designed to alert OnStar in the event of a collision. The OnStar Advisor is immediately sent right away. An OnStar Advisor is immediately sent, even if you don't respond. The Advisor can use GPS technology to locate you and request that emergency help be sent.

24-Hour Roadside Assistance and Courtesy Transportation Programs. Whichever comes first—see your dealer for details.

Owners Privileges. By driving an SRX Crossover, you’re part of a select group that enjoys special privileges. The new Cadillac Owner Center is one-stop resource to enhance your Cadillac ownership experience. Powered by Yahoo! the Owner Center offers an online Owner's Manual and more. Members can also identify service records to place online and have the opportunity to connect with other Cadillac owners. Visit onstar.com for complete details, terms and conditions of these programs, and the GM limited warranty.

Visit onstar.com for coverage map, details and system limitations.
### Luxury Collection

#### Standard Interior Features

- Advanced All-Wheel Drive
- Adaptive Remote Start
- Automatic Rainsense wipers with moisture detection
- Chrome Roof Rails
- Keyless Access
- Power-adjustable brake and accelerator pedals
- Ventilated Driver and Front Passenger Seats
- Power, tilt-sliding, electric with express-open Capable of shifting up to 100% of the torque from front to rear wheels based on road conditions. Electrically controlled from one rear wheel to the other as conditions demand. 7-spoke bright machined finish aluminum wheels
- 5th-gen (H-rated all-season) radial tires, 18” P235/65R18
- StabiliTrak Electronic Stability Control System
- 3.0L with Trailer Towing Package   3,500 lb
- 2.8L with Trailer Towing Package   3,500 lb
- 2.8L    2,500 lb
- 2.4L    2,000 lb
- 2.4L Turbo    2,450 lb
- 2.4L Turbo with Trailer Towing Package   3,500 lb
- 2.4L    2,250 lb
- 1.4L Turbo    1,850 lb
- 1.4L Turbo with Trailer Towing Package   3,500 lb
- Digital Gauge Cluster
- Automatic headlamps that turn on when the turn signal is engaged; first- and second-row outboard passenger head-curtain airbags; seat-back airbags; driver knee airbag; passenger sensing system; passenger-backed side-impact for thorax and pelvic protection (if equipped) – available only on V6 models
- 6-speed Automatic/Manual Transmission
- Stain resistant, dual-panoramic moonroof with tent theft-deterrent system; overhead with sunroof armrest, storage compartment, cupholders, Ultrasonic Front and Rear Park Assist switch (if equipped)
- Tri-zone automatic climate control with individual temperature settings for driver, front passenger and rear passengers including rear seat zones; heat/cool front seats; rear-window defroster; air conditioning; climate control system
- Deluxe Comfort Group: Drivers Heated Seat, Memory Driver Seat, Heated Rear Seat, Lumbar Support, Power Driver Seat, Sunroof; Electronically controlled; on all-wheel drive (optional with Performance Collection)
- Performance and Premium Collections; includes appearance: chrome exhaust tips, 20” 7-spoke chrome tech aluminum wheels (Requires all-wheel drive)
- Electric Parking Brake
- Keyless Entry
- HomeLink; requires three trial months with three trial months - Key III+ immobilizer; audible confirmation of each remote/fob; 2006-2010 model year vehicles; one trial month (Available only in the 48 contiguous United States and District of Columbia)
- XM Radio
