INNOVATIVE. SOPHISTICATED. AND ABSOLUTE ELEGANCE.

Ingenious technology. Inspiring performance. Precise craftsmanship. Together they are at your command to turn each and every drive into a masterful experience.

The 2018 CTS.
PASSIONS

Innovation
Performance
Craftsmanship
Advanced technologies with the power to transform a cabin into a cockpit
A collection of engines offers only one choice. Performance.
Every millimeter is a chiseled vision of modern craftsmanship.
Attention to detail makes the interior truly transporting.
A VARIETY OF TECHNOLOGIES. A SINGLE FOCUS.

The CTS is equipped with advanced technologies that deliver you one powerful promise—masterful services and convenience. From the satisfying feel of controls to seamless digital interfaces, all meet your needs with the greatest elegance and efficiency.
More than information at your fingertips

The Cadillac user experience puts a suite of information and entertainment offerings, including climate, audio, settings control and available 3-D GPS Navigation at your command. Plus, it offers the all-new Cadillac Collection, where you will be able to select and install a range of apps from music to audiobooks to weather. (Data plan rates apply.)

Your phone, even smarter

Phone Integration with Apple CarPlay™ compatibility allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen, shown below. You can also access Siri® so features are easily accessible to you or your front-seat passenger. Phone Integration also offers Android™ Auto® compatibility.

Stay connected or engaged

OnStar 4G LTE and available built-in Wi-Fi hotspot™ allows you to connect to seven devices at the same time, up to 50 feet away from your CTS. And just as convenient, compatible devices can be powered with the Wireless Charging feature.

CTS Light Platinum interior shown with Apple CarPlay and other available equipment.
Vehicles communicating with other vehicles
With V2V communications, you are alerted when other V2V-enabled vehicles that may be out of your sight are braking hard, disabled, in a crash, or experiencing a slippery road. It communicates the traffic situation with cautions ranging from gauge cluster message alerts, sounds or (if equipped) rumbles from the Safety Alert Seat. This can allow you more time to react to hazardous situations.

Performance front and center
Available Head-Up Display (HUD) projects selected information onto the front windshield, so you can keep your eyes on the road.

A head start is a smart start
Integrated into your key fob, Adaptive Remote Start engages the engine from up to 100 yards away. It can also sense outside temperature to activate the appropriate cabin climate control, as well as heat your steering wheel when needed. Plus, with your myCadillac app, you can lock and unlock, remote start and get select vehicle information from anywhere you have reception.

A special venue deserves audio to match
A premium 11-speaker Bose sound system is standard equipment. And for a more immersive experience, an available 13-speaker Bose Surround system features Centerpoint® 2 surround technology.
PERFORMANCE

OFFERED FEATURES:
- 3.6L V6 TWIN TURBO, 3.6L V6 OR 2.0L I4 TURBO ENGINES
- AND 8-SPEED AUTOMATIC TRANSMISSION
- MAGNESIUM PADDLE SHIFTERS AND DRIVER-SELECTABLE MODES
- MAGNETIC RIDE CONTROL
- ALL-WHEEL DRIVE WITH ACTIVE TORQUE TECHNOLOGY
- ACTIVE FUEL MANAGEMENT
- FRONT BREMBO® PERFORMANCE BRAKES
- WEIGHT BALANCE

PROVEN POWER AND ENDURANCE

Tested on the famed Nürburgring track, the CTS is validated to perform for you. Experience authoritative acceleration and dynamic handling each and every moment. From remarkably powerful and efficient engines, to precise handling and a finely tuned suspension, driving the 2018 CTS is to enjoy the prerogatives of performance.
**Innovation firing on all cylinders**

Active Fuel Management imperceptibly activates or deactivates 2 of the 6 cylinders, found within the 3.6L engine, according to your driving needs.

**Race-proven**

Carved from lightweight aluminum alloy, Brembo front brakes bring a host of advantages including greater stopping power and wear resistance.

**Fierce and efficient engine options**

For maximum performance, the available 3.6L V6 Twin Turbo delivers a pulse-racing 420 hp and 430 lb-ft of torque. The available 3.6L V6 delivers 335 hp. The standard 2.0L Turbo 4-cylinder delivers a potent 258 hp and a Cadillac-estimated 30 highway mpg. All engines are paired with an intelligent 8-speed automatic transmission for responsive shifting, and each features Auto Stop/Start technology for optimal efficiency.

**Power controlled is power enjoyed**

Magnesium Paddle Shifters allow you to move through the 8-speed automatic transmission manually. And driver-selectable modes (Tour, Sport, Snow/Ice and, with V-Sport models, Track) let you tune the steering, suspension and transmission depending on road conditions and your preference.

**Reading the road 1000 times a second**

Cadillac's available Magnetic Ride Control automatically adjusts the suspension to road quality and weather conditions. The system reads the road up to 1000 times a second, tuning the suspension for a highly responsive, smoother drive in otherwise shaky scenarios.

**Sure footing**

For additional control, available All-Wheel Drive with Active Torque Technology maximizes stability and handling, delivering impeccable control in less than perfect driving conditions.

**Precision balanced with 50/50 weight distribution**

Advanced alloys and engineering create near-perfect 50/50 front-to-rear weight distribution for improved handling and cabin quiet. The Rear-Wheel Drive CTS is among the lightest in its class.

IN JUST 4.4 SECONDS, THE CTS V-SPORT REVEALS ITSELF

That’s how long it takes the 420-hp, Twin Turbo V6 engine to propel this remarkable sedan from 0 to 60 mph. A variety of sophisticated handling and vehicle management features assure all this power remains firmly under your control.
Conquer curves
The electronic Limited-Slip Differential (eLSD) automatically redirects power to the drive wheels with the best traction, for better corner exit acceleration and making driving well balanced throughout a turn in most road conditions.

Partner in performance
Paired with the 420-hp, Twin Turbo V6 engine, the 8-speed automatic transmission features Performance Algorithm Shifting. This advanced technology maximizes performance by seamlessly selecting the best gear for quicker shifts and a more satisfying drive.

Style comes full circle
18” 10-spoke summer-only wheels with Ultrabright machined finish with After Midnight painted pockets* complement the V-Sport’s aggressive stance.

Project the information that matters
The available Head-Up Display (HUD) projects speed, audio, navigation and other information onto the front windshield, so you can keep your eyes on the road.

Performance: a customized view
Use the available customizable V-Sport Gauge Cluster to emphasize your tachometer, mph or other information in three reconfigurable themes.

Select the most satisfying ride
Four driving modes—Tour, Sport, Track and Snow/Ice—calibrate steering, suspension and transmission depending on your preference and road conditions.

The extraordinary made even more so
V-Sport Premium Luxury enhancements include 20-way performance front seats, Tri-Zone Climate Control, a reconfigurable gauge cluster, as well as a full-color Head-Up Display (HUD).

V-S P O R T

1. Do not use summer-only tires in winter conditions, as it would reduce shifting on vehicle safety performance and optimally, make the V-Sport equipped line with summer performance. Suspension compliance may change the vehicle’s performance characteristics. For important tire and wheel information, go to https://my.cadillac.com/learnAbout/cadillactires/ or see your dealer. Lower profile tires damage more easily; especially on rough roads. Damage is not covered under warranty. For more details, go to https://my.cadillac.com/learnAbout/cadillactires/ or see your dealer.
The tailored CTS interior will delight you. Surround yourself with striking materials, such as real wood trim and supple, yet strong available Semi-Aniline leather. Every option is curated to work together beautifully, so no matter which you choose, the cabin will be a stunning expression of your personal style.

**Offered Features:**
- 20-Way Performance Front Seats
- Tri-Zone Climate Control
- Adaptive Remote Start
- Ambient Interior Lighting
- Customizable 12.3" LCD Display
- Rear Vision Camera
- Surround Vision
- Rear Camera Mirror

CTS V-Sport Premium Luxury interior in Kona Brown. Shown with available equipment.
Preferred seating
20-way performance front seats are available in Semi-Aniline leather and offer you power-adjustable seatback bolsters and manual thigh support.

Very personal comfort
Available Tri-Zone Climate Control allows driver, front and rear passengers to adjust temperatures individually.

Lighting so ingeniously hidden, it’s revealing
Ambient Interior Lighting employs LED spotlights and light pipes to subtly highlight the craftsmanship within your cabin.
Determine your data
An available, customizable 12.3” diagonal LCD Gauge Cluster allows you to choose how to display vehicle data, entertainment, communications, and navigation information in full color.

A forward-looking rear view
When in Reverse, the standard Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac user experience screen. Guidelines plot your intended trajectory, helping you see objects that might be in your path.

A higher look at what surrounds
With available Surround Vision, you have a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac user experience screen, helps increase your awareness when parking or in Reverse.

A brilliant look back
With just a touch, the available Rear Camera Mirror streams HD video to the rearview mirror. This view (A) offers a wider, less obstructed view than an ordinary mirror. And a simple toggle instantly reverts it back to a traditional mirror (B).
METAL RICH WITH MEANING

Cutting-edge aerodynamics, innovative lighting, advanced metal work. These, and the belief that a vehicle should move you even when standing still, are all hallmarks of CTS exterior design.
Illuminating innovation
The hundreds of crystalline LED lights that accentuate the exterior are also more energy efficient than traditional technologies. Available High-Intensity Discharge (HID) headlamps feature Adaptive Forward Lighting. That technology automatically turns the headlamps according to your steering wheel and provides you with improved road illumination.

A grand entrance is all but guaranteed
The powerful lines, curves and planes of the inlaid hood are the metalcrafter’s work at its most sophisticated.

Innovation you can see
Available Intellibeam headlamps automatically turn high beams on or off according to outside conditions. The system also disengages high beams when approaching headlamps or taillamps are within range.

A concealed advantage
Hidden behind the grille, the Active Aero Grille Shutters automatically close to maximize aerodynamics when additional cooling is not required.

A smart finish
The integrated rear spoiler features a 48-LED center brake lamp to help manage airflow and create downward force.

Improved visibility with impressive style
Available Illuminating Door Handles deliver both.

CTS Premium Luxury in Radiant Silver Metallic. Shown with available equipment.
A HEALTHY OBSESSION WITH SAFETY

A true focus on driver and passenger well-being is never done. In the CTS, this focus manifests itself in innovations and advances that deliver nothing less than confidence.
Surrounded by safety innovation

**Maintain an intelligent space**
Available Adaptive Cruise Control employs both radar and cameras to maintain a set selected distance between you and the detected vehicle ahead.

**Truly forward thinking**
Available Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while available Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

**An intelligent wiper**
Available Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain’s intensity. Whenever wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

**Strong enough to crumple**
The ultra-high-strength steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with 10 standard air bags, including area air bags for the driver and front passenger, and side-impact air bags for front and rear passengers.

**Firmly reassuring**
During emergency braking or sudden maneuvers, available Automatic Safety Belt Tightening activates. When conditions revert to normal, they ease automatically.

**Grabs your attention. Subtly.**
Cadillac’s available patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver’s seat, indicating the direction of the threat—left, right, front or rear.

**Brighter backing out**
When backing out of a parking space, available Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle and provides an audible warning or a pulse to the Safety Alert Seat.

**Gain precious time**
Up to certain speeds, available Forward and Reverse Automatic Braking can sense imminent forward and reverse collisions and automatically engage the brakes, helping you reduce crash impacts.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.
ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, costs, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog, and other printed materials provided at the dealership or affiliated to vehicles are approximate based upon design and engineering drawings and prototype and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some options may be unavailable when your vehicle is assembled, or if there are changes, that they are acceptable to you. Since some options may be unavailable when your vehicle is assembled, or if there are changes, that they are acceptable to you.

NEW VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2018 Cadillac. This warranty is for Cadillac vehicles registered in the U.S. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/100,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible, Roadside Assistance Program and Courtesy Transportation Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal rusts through (in the form or an actual hole) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under this rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be delayed with fleet orders. See dealer for details.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from them by calling 1-800-782-4356 or by visiting www.helminc.com.

TIRE SEALANT AND COMPRESSOR KIT

If your vehicle has a tire sealant and compressor kit, it uses a liquid tire sealant to temporarily seal up to 6 in.-inch puncture in the tread area of the tire. After using the tire sealant, the tire should not be driven more than 5 mph. The tire sealant can only be used on one tire, one time before the expiration date. The sealant can only be used on one tire, one time before the expiration date.

ASSEMBLY

Cadillac vehicles and their components are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles and their components are assembled or produced by different or differently sourced components than originally scheduled. Cadillac vehicles and their components are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide.
