PERFORMANCE

STAND OUT DRIVING

A powerful 4-cylinder Turbo engine propels you. Refined handling carries on a lively conversation with the road. ATS performance is a combination of power and poise that makes every drive something to look forward to – and remembered.

OFFERED FEATURES: TWO IMPRESSIVE ENGINE CHOICES • LIGHTWEIGHT ARCHITECTURE AND AERODYNAMIC DESIGN • MAGNETIC RIDE CONTROL • 8-SPEED AUTOMATIC TRANSMISSION • FIVE-LINK INDEPENDENT REARSuspension • Magnesium Paddle Shifters • ZF PREMIUM STEERING • LIMITED-SLIP DIFFERENTIAL • BREMBO PERFORMANCE BRAKES
Elude the air
The ATS boasts advanced aerodynamics that give you an aggressive, sporty look. An underbody aero shield and beveled taillamps manage airflow. Trunk designs function as spoilers to create downward force. In addition, advanced metals and the elimination of all unnecessary weight have produced one of the lightest vehicles in the segment, enabling you to be driven by performance.

Smart shifting
You can move through gears faster than ever before as both engines are paired with an intelligent 8-speed automatic transmission that employs advanced algorithms.

1000 times a second
Available Cadillac Magnetic Ride Control reads the road up to 1000 times a second and automatically adjusts the suspension to road surface and weather conditions. So you can handle a highly responsive vehicle, regardless of road conditions.

Choose power
You can choose from two incredibly responsive powerplants. An available 3.6L V6 engine that delivers 335 hp or the standard 2.0L Turbo, a powerful 4-cylinder Turbo engine that lets you push performance. Both the 2.0L and 3.6L engines are equipped with Cadillac’s Auto Stop/Start technology for fine-tuned efficiency.

ATS Premium Performance Coupe in Black Raven. Shown with available equipment.
Power controlled is power enjoyed
Available Magnesium Paddle Shifters allow you to move effortlessly through the transmission’s 8 gears without a manual clutch, giving you total control without taking your hands off the wheel.

Actounding assistance
With advanced software, ZF Premium Steering responds instantly to your commands.

Conquer curves
Available Limited-Slip Differential appropriately redistributes power to the drive wheels, providing you with more control.

Flexible and invaluable
A five-link independent rear suspension helps the vehicle stay firmly planted on the road, delivering you increased control.

Race-proven. Full stop.
Carved from lightweight aluminum alloy, Brembo front brakes bring you a host of advantages including greater stopping power and wear resistance.
FORM THAT NEVERfollows

Just like your style, every curve, bend and line of the ATS is modern. The Coupe’s powerfully sculpted front and rear vertical lighting says performance at will, while the Sedan’s chiseled exterior is designed to slice through the air. Both vehicles possess an aggressive stance that projects power even when standing still.

OFFERED FEATURES: AERO PROFILE MIRRORS • FORGED ALUMINUM WHEELS • ILLUMINATING DOOR HANDLES • ADVANCED LIGHTING TECHNOLOGY • INTEGRATED BRAKE LAMP • DUAL EXHAUST OUTLETS • CAPLESS FUELING SYSTEM • DISTINCT EXTERIOR AND INTERIOR FEATURES
Low profile, high design
The aerodynamic and swoop ATS Coupe side mirrors feature an integrated turn signal so they are both functional and stylish.

Stylish wheels come full circle
Available 18" forged aluminum wheels deliver striking looks, as well as excellent strength and ride comfort.

An illuminating welcome
When you approach the ATS or unlock your doors, available Illuminating Door Handles are a distinctive style cue and invite you forward in the dark.

Lighting the way forward
Available High Intensity Discharge (HID) Intellibeam headlamps feature available Adaptive Forward Lighting that swivels as the vehicle turns, helping illuminate curves so you can see what lies ahead. And light-blade LED taillamps showcase a dramatically sculpted rear profile to help you stand out on the road.
Faster fueling
You no longer have to unscrew a gas cap as the Capless Fueling System is elegance in action, for quicker fueling. Simply place the gas nozzle into your ATS, fuel, and be on your way.

Polished punctuation
You’ll look powerful and sophisticated with two polished and sculpted exhaust tips that accentuate the rear stance.

Seamless safety
The all-LED center brake lamp is integrated into the trunk of the ATS for superior brake warning visibility while it sits slightly above the trunk on the sedan, so you will be noticed while traveling.
FASHION IS OF THE MOMENT. STYLE IS FOREVER.

The ATS interior is stunning and streamlined. Surround yourself with a story of modern elegance and craftsmanship writ in available exotic woods, carbon fiber and supple Semi-Aniline leather.
Curated to compliment
When it comes to its sophisticated interior, you have many options. The tailored interior features a hand-finished instrument panel, door trim, armrests, and seats, as well as a hand-sewn steering wheel. The Coupe offers five available unique themes of materials like supple Semi-Aniline leather, exotic wood, and carbon fiber trims. The sedan has seven. And in every case, these options are designed to work together beautifully.

Space made smart
ATS offers more space when you need it, with available 60/40 split-folding rear seats.

Crafted to comfort
Available performance front seats are crafted from premium materials and offer up to 18-way adjustments for extra support so you can keep driving in comfort.

No detail too small
Available sport alloy pedals add another level of aesthetic pleasure.
THE FUTURE
HAS ARRIVED.
EVEN FASTER.

The 2018 ATS features a variety of technologies designed to make your experience more of everything you want. From accessing entertainment to viewing of vital driving information, Cadillac innovation works seamlessly and intuitively to serve you.

OFFERED FEATURES:
- CADILLAC USER EXPERIENCE WITH PHONE INTEGRATION
- CADILLAC 4G LTE BUILT-IN WI-FI® HOTSPOT
- KEYLESS ACCESS AND PUSH-BUTTON START
- RECONFIGURABLE DRIVER INFORMATION CENTER
- HEAD-UP DISPLAY
- BOSE® PREMIUM AUDIO SYSTEMS
- ADAPTIVE REMOTE START

1. Requires a compatible mobile device, active data plan and GM Data Services. Service not available in select markets. Visit onstar.com for coverage map details and system limitations. Data plans provided by AT&T.®
Your phone, even smarter

Phone Integration with Apple CarPlay™ compatibility allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen, shown below. You can also access Siri®, so features are easily accessible to you or your front-seat passenger.

Android™ Auto compatibility is also available with Phone Integration.

Information at your fingertips

The Cadillac user experience puts a suite of information and entertainment offerings at your command. You can even personalize the interface to accommodate different driver or passenger preferences when they enter the vehicle. Access features such as real-time traffic, and point of interest with available OnStar Connected Navigation®, adjust your climate, or search the Collection to browse, select and install apps. With the available Collection, you can download new apps for your ATS, customize your content with music, audiobooks, weather and more (data rates may apply).

Determine your data

A customizable three-window, full-color Driver Information Center (DIC) allows you to choose how to display phone, radio, navigation and other vehicle data.

Project the information that matters

The available Head-up Display (HUD) projects your speed, audio, navigation and other information onto the front windshield, so you can keep your eyes on the road.

ATS Premium Performance in Jet Black. Shown with Apple CarPlay and other available equipment.
Stay connected or entertained
Available Cadillac 4G LTE built-in Wi-Fi hotspot1 allows you to connect up to seven devices at the same time up to 50 feet away from your ATS. So your passengers can check e-mail or watch their favorite entertainment.

A special venue deserves audio to match
The Bose Centerpoint® surround sound system provides you with a rich listening experience.

Unlock sophistication
Without removing the key fob from your pocket or handbag, Keyless Access automatically unlocks or locks the doors as you approach or walk away from the vehicle. The fob also activates the vehicle’s Push-Button Start feature.

A head start is a smart start
Integrated into your key fob, available Adaptive Remote Start engages the engine from up to 100 yards away. It can also sense outside temperature to activate the appropriate cabin climate control, as well as heat your steering wheel, when needed. Plus, with a paid OnStar plan and your myCadillac app2 you can lock and unlock, remote start and get select vehicle information from anywhere you have reception.

---

1. Requires a compatible mobile device, active service and data plan. OnStar 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plans provided by AT&T. Push-Button Start feature is available on Caddy and Escalade models.

2. Available on select Apple and Android devices. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan you are enrolled in. Device data connection required. Visit onstar.com for more details.
SAFETY
CONFIDENCE THAT LEADS TO SPIRITED DRIVING

Sedan or Coupe, the ATS is fun to drive. And a variety of safety innovations — from strong steel to available intelligent systems that are on the lookout — bring you all-important additional peace of mind.

OFFERED FEATURES:
- SAFETY CAGE
- AUTOMATIC SAFETY BELT TIGHTENING
- ADAPTIVE CRUISE CONTROL
- RAINDSENSE WIPERS
- LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT
- FORWARD COLLISION ALERT
- LANE KEEP ASSIST WITH LANE DEPARTURE WARNING
- SAFETY ALERT SEAT

ATS Premium Performance Sedan in Red Obsession Tintcoat. Shown with available equipment.
Surrounded by safety innovation

**Maintain an intelligent space**
Available Adaptive Cruise Control employs radar technology to maintain a selected distance between you and the detected vehicle ahead.

**Truly forward thinking**
Available Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while available Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

**An intelligent wiper**
Available Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

**Travel the straight and smart**
Using monitors to sense lane boundaries, available Lane Keep Assist gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, Lane Departure Warning sends a visual alert in the cluster and a warning pulse through the seat cushion when your vehicle crosses the lane marking.

**All clear**
Available Lane Change Alert surveys the area well beyond the side blind zone, and illuminates the side mirror warning icon to alert you of a rapidly approaching vehicle. Available Side Blind Zone Alert monitors your blind spots, so if a vehicle is in the adjacent lane, it also illuminates the side mirror icon. In both features, if you’ve activated your turn signal, the icon on the side mirror flashes to alert you.

**Strong enough to crumple**
The high-strength steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with 8 standard air bags.

**Firmly reassuring**
During emergency braking or sudden maneuvers, available Automatic Safety Belt Tightening activates. When conditions revert to normal, they ease automatically.

**Brighter backing out**
When backing out of a parking space, available Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle with either an audible alert or a pulse to the available Safety Alert seat.

**Gain precious time**
Up to certain speeds, available Forward and Reverse Automatic Braking can sense forward and reverse collisions and automatically engage the brakes, helping you to reduce crash impact.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for important feature limitations and information.
