Get familiar with the Escalade OLED Infotainment System\(^1\) that will transform your journey.

**CONTROL PANEL**
This touch-screen displays your trip information, lets you select the Cluster Display layout, and control the available Head-Up Display and available Night Vision\(^2\) system.

**CLUSTER DISPLAY**
This (non-touch) screen shows your speed, fuel level and other important information. Choose from four displays: Reconfigurable Gauge View, Map\(^3\), Augmented Reality and available Night Vision.

**APP TRAY**
This area provides shortcuts to commonly used features.

**INFOTAINMENT SCREEN**
This touch-screen controls your navigation, music and many other vehicle functions. Control the screen by touch or with the Rotary Controller. Swipe left and right to see more pages.

**STATUS PANE**
This section of the screen displays the time, exterior temperature, rear climate settings, indicators and more. Tap the time to set the clock.

---

1 Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices.
2 Read the vehicle Owner’s Manual for important feature limitations and information.
3 Map coverage available in the U.S., Puerto Rico and Canada.
SELECT CLUSTER LAYOUT
To change the layout, tap the CLUSTER icon 🔄 on the Control Panel screen (left of the steering wheel), then choose from:

- Gauge View
- Map View
- Augmented Reality
- Night Vision View (if equipped)

GAUGE/SPEEDOMETER OPTIONS
When you pick "Gauge View," you can change the content on the left and right sides of the speedometer. You can also select a digital speedometer, speed sign and speed warning color by going to the SETTINGS app on the Infotainment Screen.

Left zone (Vehicle information)
View oil life, tire pressure, etc. To change it, tap the VEHICLE INFORMATION app icon 📈 on the Infotainment Screen, select the vehicle information you would like to see in the Cluster, then tap “Show in Cluster.”

Right zone (Navigation, phone, audio, alerts)
Shows your active Navigation route, audio selection or phone call information. Vehicle alerts will also appear here. Use the right-hand steering wheel controls to browse content in this zone. If you’re using Navigation, directions will take priority in this part of the display.

Shown with optional content.
CONTROLLING THE INFOTAINMENT SCREEN

ROTARY CONTROLLER
You can also use the Rotary Controller to interact with the Infotainment Screen. When you’re using it, the icons on the screen change to a circular layout so it’s easier to move around by rotating the center knob.

Volume/Power
Adjust volume; press to mute; press and hold to power off.

Rotary Knob
Tilt/rotate or push to select.

Shortcut Buttons
- Audio
- Navigation
- Vehicle Information
- Phone
- Back
- Home

TOUCH
Use the same type of touch controls you use on a smartphone or tablet:

- Tap
- Scroll up/down
- Swipe left/right
- Press and hold; drag and drop
- Pinch and spread

Note: The type of touch control you can use depends on which screen and menu you’re using.

Certain features shown not available with all configurations. See dealer for details.
PERSONALIZE THE SYSTEM

SIGN-IN TO THE SYSTEM
For the best experience, tap the USERS icon on the Infotainment Screen to create a Personal Profile. Be sure to use the same email address you use as a sign-in for the myCadillac Mobile App 4 and Owner Center.

CUSTOMIZE THE INFOTAINMENT SCREEN
• **Rearrange App Icons:** To rearrange the icons, press and hold an app to enter ‘Edit Mode’ (you’ll see boxes around the icons). Then, drag and drop an app icon into a new spot to customize the order; or drag it into the App Tray bar on the left side of the screen to save it for easy access.
• **Change Widgets:** Swipe to the first page (far left dash at the bottom of the screen) to access easy-view widgets. Press and hold a widget to remove or replace it.
• **Save Audio Favorites:** In the Audio app, tap the STAR icon to save a Favorite. To find your stored selections, choose Favorites from the audio source menu.

SEARCH FOR AN ITEM
If you need help finding something in the Infotainment System, tap the SETTINGS app on the Home screen, then select the Search tab.

PAIR YOUR PHONE VIA BLUETOOTH®
1. Tap the PHONE app icon on the Home screen of the infotainment system.
2. Select “+Connect Phone”.
3. Follow the prompts on the screen and on your phone to complete pairing.
